When going into the next page, the below content will be shown,The content is about some legal issue. After viewing it, please click Accept on the bottom right

Here's the legal stuff

Last updated July 2015

MICROSOFT SOFTWARE LICENSE TERMS
WINDOWS OPERATING WYWTEM
IF YOU LIVE IN (OF IF YOUR PRINCIPAL PLACE OF BUSINESS IS IN) THE UNITED STATES, PLEASE READ THE BINDING ARBITRATION CLAUSE AND CLASS ACTION WAIVER IN SECTION 10. IT AFFECTS HOW DISPUTES ARE RESOLVED.
Thank you for choosing Microsoft!

Depending on how you obtained the Windows software, this is a license agreement between (i) you and the device manufacturer of software installer that distributes the software with your device; or (ii) you and Microsoft Corporation (or ,based on where you live or if a business where your principal place of business is located, one of its affiliates) if you acquired the software from a retailer. Microsoft is the device manufacturer for devices produced by Microsoft of one of its affiliates, and Microsoft is the retailer if yiu acquired the software directly from Microsoft.

This agreement describes your rights and the conditions upon which you may use the Windows software. You should review the entire agreement, including any supplemental license terms that accompany the software and any linked terms, because all of the terms are important and together create this agreement that applies to you, You can review linked terms by pasting the (aka.ms/) link into a browser window.

Wait a little while for the system to finish loading.

II. How to prevent vertical rotation

After entering the system, the first thing to do is to prevent vertical screen rotation. It is very easy to do this, just move the pointer (using mouse mode) to the system tray in the lower right corner of the screen and click "Notification", and then click "Rotation Lock" in the notification area.
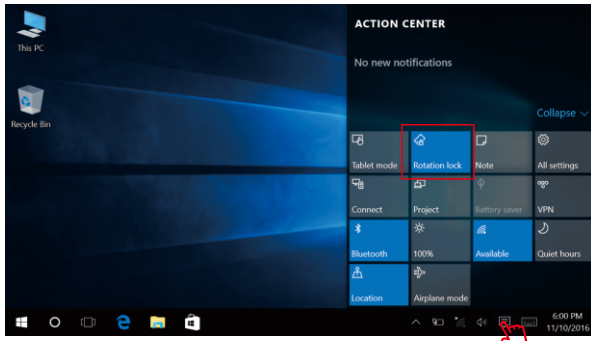

III. Keyboard and Gamepad Tests

Go to http://www.gpd.hk/news.asp?id=1519&selectclassid=002002
Download "XD_WIN User Full Test Instructions.rar", which contains three applications, namely:

- JoyTester.exe for gamepad test in Dinput mode
- PS3 & PS4 0607.exe for gamepad test in Xinput mode
- Keyboardtestutility.exe for keyboard test

"XD_WIN User Full Test Instructions"contains detailed explanation of test steps.

Description of handle mode:

The handle is the Xinput mode. Microsoft to promote console Xbox 360 console and transplanted into the PC game, a new Xinput apis interface standard, game cover if there is a "Games - for - Windows", you need to use the handle of the Xinput support mode. For example, the game "F1 2010", "colin McCrea rally" and so on.

IV. Initial System Optimization

1. Optimizations for the best performance

Step 1: Right click "My Computer" and click "Properties".
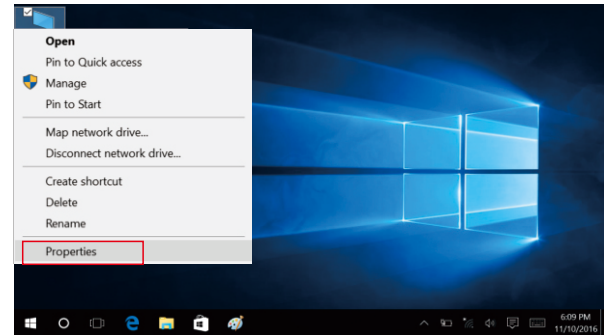

Step 2: Click on the area circled by the red box.

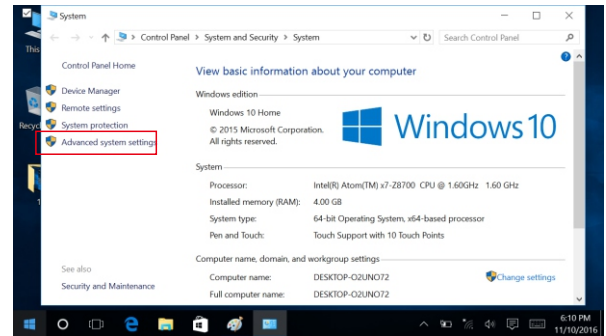

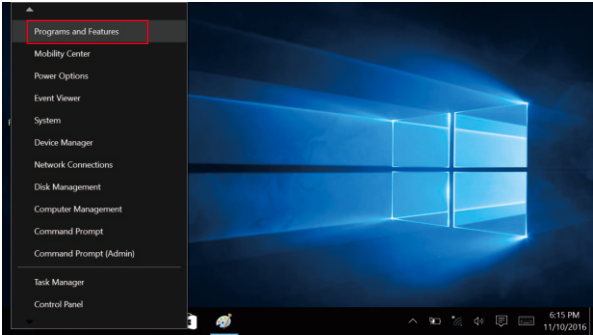

Step 3: Click on the area circled by the red box.
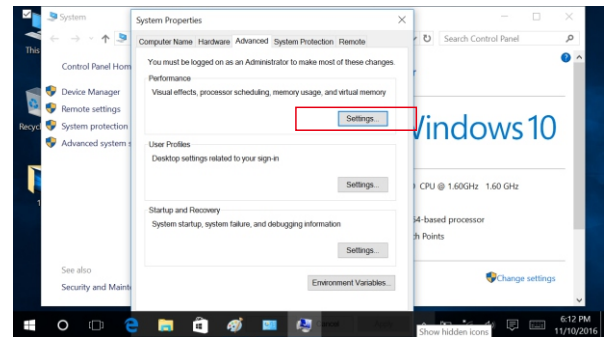

Step 4: Click on the area circled by the red box.

Step 5: Click OK to save and exit.

**2. Disable Win10 functions**

Step 1: Right-click the start menu button of Windows10, then select "Programs and Features" in the pop-up menu.

Step 2: In the opened window of Programs and Features, click the quick link of "Enable and Disable Windows Services" on the left.

Step 3: A Windows function screen will appear, in which you can see some system services that come with Windows10.
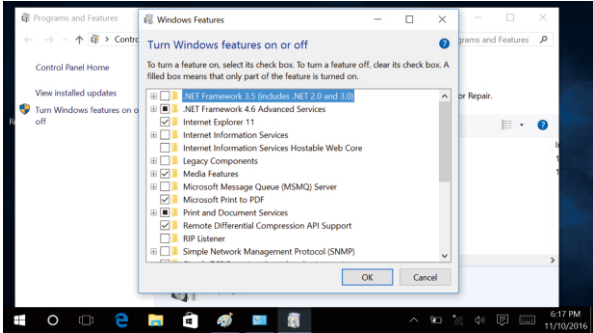

Step 4: For example, in order to disable the Fax and Scan Service of Windows10, you need to pull on the right side of the scroll bar and drag it to find the item of Print and Services, then expand the same for more sub-items, in which you will see the sub-item of Fax and Service, uncheck the box in front to turn off this service.

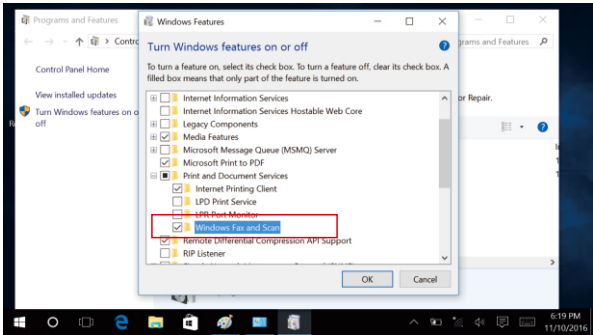

Step 5: A pop up window showing "Searching for Required Files" will appear.
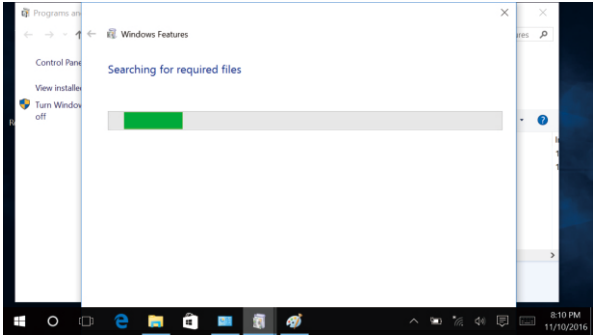

Step 6: A pop-up window showing "Windows has completed the requested changes" will appear shortly. Click the "Reboot Now" button below, then the system will restart for the latest changes to take effect.

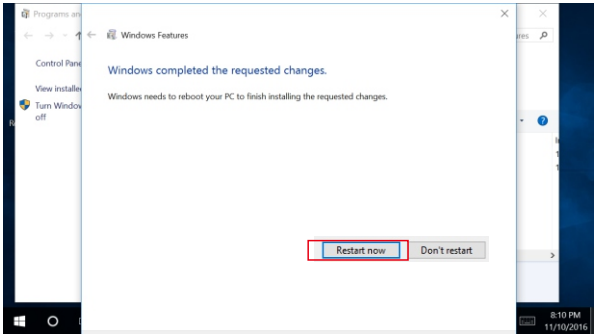

Step 7: Re-open the Windows Features you will see that the box before Windows Fax and Scan has been un-checked. You can easily re-enable this service by simply checking the box again.

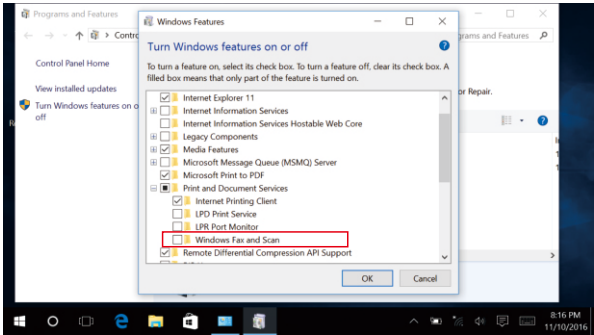

3. Disable Windows Defender

Step 1: Right click "Start" - "Command Prompt (Administrator)"

Step 2: In the DOS windows,input command line: reg add "HKLM\SOFTWARE\Microsoft\Windows Defender" /v DisableAntiSpyware /t REG_DWORD /d 1 /f and press Enter, then restart GPD WIN.

Step 3: Going to the computer desktop, double click "Control Panel" on the desktop.

Step 4: Click " Administrative Tools"
